We want
to hear
your voices

Voices of
Survivors

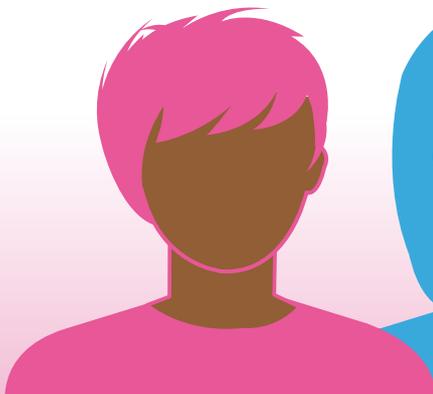

Hearing Women for Change

*Sharing my story
helped me to move
forward*

Feeling ashamed
kept me silent
for many years

**BEING
LISTENED
TO HELPED
ME TO
HAVE A VOICE**

I thought it was my
fault, I didn't think
anyone would
believe me

Voices of Survivors

Hearing Women for Change

Who are we?

Voices of Survivors: Hearing Women for Change is a partnership between Manchester Action on Street Health, Manchester rape Crisis and Trafford Rape Crisis; working closely with Manchester Metropolitan University.

This research project is funded by the Lloyds Bank Charitable Foundation.

For more information visit our website at:

www.vosgm.org.uk

If you are a woman in Greater Manchester who has ever experienced rape, sexual assault, sexual abuse, or exploitation or any other unwanted sex or sexual contact **we want to hear from you.**

At least one in 5 women has experienced some form of sexual violence. We know that lots of women never tell anyone and even those who do can find it hard to get the support they need. **We want to hear from you so that we can change things and make sure that other women are able to get help, when and how they need it.**

Please can you help by filling in our questionnaire? You can do it online, or on paper, and shouldn't take more than 15 minutes. To fill in the questionnaire please go to www.vosgm.org.uk

If you'd like someone to support you while you complete the questionnaire let us know by emailing VOSproject@mash.org.uk and we will try our best to find someone to help.

When we have finished collecting the questionnaires they'll form part of a report which we will use to help influence the planning of services that really reflect what women want and need.

Everything you tell us will be completely anonymous.

Please help make services better for women in the future
